**iShares Electric Vehicles and Driving
Technology UCITS ETF**

A sub-fund of iShares IV plc

USD (Acc) Share Class

ISIN: IE00BGL86Z12

Exchange Traded Fund (ETF)

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the STOXX Global Electric Vehicles and Driving Technology Index, the Fund's benchmark index ("Index").
- ▶ The Share Class, via the Fund, is passively managed, and aims to invest in equity securities (e.g. shares) that, so far as possible and practicable, make up the Index.
- ▶ The Index measures the performance of a subset of equity securities within the STOXX Global Total Market Index (TMI) (the "Parent Index"). Companies included in the Index are exposed to electric vehicles and assisted-driving technologies, including companies involved in the manufacturing of electric and autonomous vehicles, battery suppliers for electric vehicles, and other suppliers in the electric and autonomous vehicles manufacturers' supply chain, as determined by the index provider. To be eligible for inclusion of the Index, such companies must (i) have a 3-month median daily traded volume greater than €1 million (EUR); (ii) have a free float market capitalisation greater than €200 million (EUR); (iii) generate at least 50% of their revenue (45% for existing constituents of the Index) from one or more of the following sectors: Electronic Vehicle Manufacturers, Electronic Vehicle Battery Suppliers and/or an Electronic Vehicle Manufacturers' Supply Chain, as determined by the index provider (the "Revenue Filter"); and (iv) be domiciled in an eligible country, also determined by the index provider.
- ▶ The Index may include small, mid and/or large capitalisation constituents of the Parent Index from both developed and emerging market countries globally. The Parent Index is free float market capitalisation weighted, however, each constituent of the Index is equally weighted at each Index rebalance. This means that, at each index rebalance, the Index will have a larger weighting in smaller and mid-capitalisation securities compared to its Parent Index. The Index rebalances on an annual basis. Free float market capitalisation is the share price of a company multiplied by the number of shares available to international investors. The Index aims to have a minimum number of 80 constituents at the time of each rebalancing but if the application of the Revenue Filter results in this number falling below 80, the Revenue Filter is progressively lowered, in accordance with the index provider's methodology, until the number of Index constituents is equal to or greater than 80.
- ▶ The Fund uses optimising techniques to achieve a similar return to its Index. These techniques may include the strategic selection of certain securities that make up the Index or other securities which provide similar performance to certain constituent securities. These may also include the use of financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets). FDIs may be used for direct investment purposes. The use of FDIs is expected to be limited for this Share Class.
- ▶ The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to off-set the costs of the Fund.
- ▶ Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
- ▶ Your shares will be accumulating shares (i.e. income will be included in their value).
- ▶ Your shares will be denominated in US Dollar, the Fund's base currency.
- ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded.

Risk and Reward Profile

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Share Class.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Share Class is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.

- Shares in smaller companies typically trade in less volume and experience greater price variations than larger companies.
- Investments in the technology securities are subject to absence or loss of intellectual property protections, rapid changes in technology, government regulation and competition.
- Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political or regulatory events.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund's prospectus. This figure excludes portfolio trade related costs, except costs paid to the depository and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

Past Performance

Past performance is not a guide to future performance.

The Fund was launched in 2019. The Share Class was launched in 2019.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

This chart has been left intentionally blank as there is less than one year's performance data.

Practical Information

- ▶ The depository of the Fund is State Street Custodial Services (Ireland) Limited.
- ▶ Further information about the Fund and the Share Class can be obtained from the latest annual report and half-yearly reports of iShares IV plc. These documents are available free of charge in English and certain other languages. These can be found, along with other information, such as details of the key underlying investments of the Share Class and share prices, on the iShares website at www.ishares.com or by calling +44 (0)845 357 7000 or from your broker or financial adviser.
- ▶ Investors should note that the tax legislation that applies to the Fund and Share Class may have an impact on the personal tax position of your investment.
- ▶ The Fund is a sub-fund of iShares IV plc, an umbrella structure comprising different sub-funds. The Fund has one or more share classes. This document is specific to the Fund and Share Class stated at the beginning of this document. However, the prospectus, annual and half-yearly reports are prepared for the umbrella.
- ▶ iShares IV plc may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Fund's prospectus.
- ▶ The indicative intra-day net asset value of the Share Class is available at <http://deutsche-boerse.com> and/or <http://www.reuters.com>.
- ▶ Under Irish law, iShares IV plc has segregated liability between its sub-funds (i.e. the Fund's assets will not be used to discharge the liabilities of other sub-funds within iShares IV plc). In addition, the Fund's assets are held separately from the assets of other sub-funds. Assets and liabilities specific to a share class would be attributable to only that share class, however there is no segregation of liabilities between share classes under Irish law.
- ▶ Switching of shares between the Fund and other sub-funds within iShares IV plc is not available to investors. Only Authorised Participants dealing directly with the Fund may switch shares between share classes of the Fund subject to meeting certain conditions in the Fund's prospectus.
