Vanguard Global Value Factor UCITS ETF (the "Fund")

A sub-fund of Vanguard Funds PLC

(USD) Accumulating
ISIN: IE00BYR0B57

Manager: Vanguard Group (Ireland) Limited ("VGIL")

Objectives and investment policy

- The Fund seeks to provide long term capital appreciation.
- The Fund pursues an actively-managed investment strategy whereby the investment manager has discretion over the composition of the Fund's portfolio holdings. The Fund will seek to achieve its investment objective by investing primarily in equity securities.
- In seeking to achieve the Fund's investment objective, the investment manager uses a proprietary quantitative model to evaluate an investment universe comprised of large, mid and small cap equity securities from developed markets across the world, which includes a diverse representation of companies, market sectors and industry groups. This investment universe is drawn primarily from equity securities included in the FTSE Developed All Cap Index and the Russell 3000 Index (the "Indices") (the "Investment Universe"). While the investment manager may adopt constraints, depending on market conditions, as to the extent to which the Fund's holdings deviate from the constituents of the Indices on a regional, country, sector, industry group and individual stock level, the extent to which the portfolio holdings may deviate from the Indices may be significant. The investment manager has discretion to apply, change, and remove any such constraints, which may limit the extent to which the Fund can outperform the Indices.
- The investment manager's quantitative model implements a rules-based active approach that aims to assess the factor exposures of securities, favouring equity securities which, when compared to other securities in the Investment Universe, have lower prices relative to their fundamental measures of value (which measures may include price-to-book or price-to-earnings ratio, estimated future earnings and operating cash flow). This measure (the "Value Factor") has been shown to be a component of long-run stock market returns.
- The Fund may use derivatives in order to reduce risk or cost and/or generate extra income or growth. The use of derivatives could increase or reduce exposure to underlying assets and result in greater fluctuations of the Fund's net asset value. A derivative is a financial contract whose value is based on the value of a financial asset (such as a share, bond, or currency) or a market index.
- The base currency of the Fund is USD.
- The Fund invests in securities which are denominated in multiple currencies. Movements in currency exchange rates can affect the return of investments.
- The Fund may engage in short term secured lending of its investments to certain eligible third parties. This is used as a means of generating additional income and to off-set the costs of the Fund.
- The Fund may not be appropriate for short-term investment.
- The Directors do not intend to declare a dividend on the Fund's Shares. Any income attributable to such Shares is reflected in the Fund's net asset value per share.
- ETF Shares are listed on one or more stock exchange(s). Subject to certain exceptions set out in the prospectus, investors who are not Authorised Participants may only sell ETF Shares through a company that is a member of a relevant stock exchange at any time when that stock exchange is open for business.
- Portfolio transaction costs will have an impact on performance.
- Shares in the Fund can be bought or sold on a daily basis (save on certain bank holidays or public holidays and subject to certain restrictions described in the Supplement) by submitting an application in writing or by telephone. A full list of the days on which shares in the Fund cannot be sold is available on <https://global.vanguard.com/portal/site/loadPDF?country=global&docId=11628>

For further information about the objectives and investment policy of the Fund, as well as the limited relationship with the Index provider, please see the supplement for the Fund ("Supplement") and Appendix 6 of the Vanguard Funds plc prospectus (the "Prospectus") on our website at <https://global.vanguard.com>

Risk and reward profile

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may change over time.
- The lowest category does not mean "risk free".
- The Fund is rated 5 due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
 - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
 - Movements in currency exchange rates can adversely affect the return of your investment.
 - Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political or regulatory events.

The risk and reward indicator does not take account of the following risks of investing in the Fund:

- Counterparty risk. The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- Liquidity risk. Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

For further information on risks please see the "Risk Factors" section of the Prospectus on our website at <https://global.vanguard.com>

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge*	None
Exit charge*	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charges	0.22%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

Investors who are not Authorised Participants ("APs") may have to pay fees to a stockbroker when you buy or sell on stock exchange(s). The fees are available directly from your stockbroker and are not charged by, or payable to, the Fund.

APs dealing directly with the Fund will pay related transaction costs. For cash creations or redemptions there will be a cash transaction fee of a maximum of 2% which is paid to the Fund, and all transactions will have associated transaction costs. Investors who are not APs will not pay these fees or costs.

* In the case of a large subscription or redemption by an investor, that investor may have to pay an additional charge (e.g. anti-dilution levy) to the Fund to cover transaction costs incurred.

The ongoing charges figure is based on expenses for the year ended 31 December 2019. This figure may vary from year to year. It excludes portfolio transaction costs.

For further information about charges, please see the Supplement and the sections entitled "Buying Shares", "Redeeming Shares", and "Fees and Expenses" in Prospectus on our website at <https://global.vanguard.com>
