

KEY INFORMATION FOR THE INVESTOR

This document provides essential information to investors in this fund. It is not a promotional document. The information that it contains is provided to you in accordance with a legal obligation in order to allow you to understand what an investment in this fund involves and what risks are associated with it. It is recommended that you read it in order to make an informed decision to invest or not.

Lyxor CAC 40 Daily (2x) Leveraged UCITS ETF - Acc (the "Fund")

ISIN: FR0010592014 - Sub-fund of the MULTI UNITS FRANCE investment company (the "Company") domiciled in France.

Managed by Lyxor International Asset Management S.A.S. ("LIAM")

Investment objectives and policies

The Fund is an index-tracking UCITS passively managed.

The Fund's objective is to be exposed, with daily rebalancing, to the French equities market, by replicating, both upwards and downwards, the performance of the CAC 40 Leverage Gross Return strategy index (gross dividends reinvested) (the "Benchmark Index"), denominated in euros (EUR), which represents a leveraged strategy (with daily leverage of 2x), with daily rebalancing, against the CAC40® Gross Return index (gross dividends reinvested) (the "Parent Index"), the main French stock market index, while minimising the tracking error between the Fund's performance and that of the Benchmark Index as much as possible.

The anticipated level of tracking error under normal market conditions is indicated in the Fund's prospectus.

Over the period of one trading day, any decrease in the Parent Index will lead to an even bigger decrease in the net asset value of the Fund. Over a period longer than one trading day, however, due to the daily readjustment of the leverage made to the Benchmark, the Fund's performance will not be equal to the double of the performance of the Parent Index, and could even go in the inverse direction.

Further information about the Euronext indices can be found on the Euronext website (www.euronext.com).

The Fund seeks to achieve its objective via an indirect replication, through one or more OTC swaps (financial derivative instruments, "FDIs"). The Fund may invest in a diversified portfolio of international equities, whose performance will be swapped for the performance of the Benchmark Index using FDIs.

The updated composition of the Fund holdings is available on www.lyxoretf.com.

In addition, the indicative net asset value appears on the Fund's Reuters and Bloomberg pages and may also be indicated on the websites of the exchanges where the Fund is listed.

The Fund is eligible for the French PEA (equity savings plan) and therefore invests at least 75% of its assets in shares in companies in the European Union.

The share currency is the Euro (EUR).

- **Invested financial instruments:** international equities, FDIs.
- **Recommended Investment Period:** as this is an arbitrage product, this Fund may not be suitable for investors wishing to make a medium or long-term investment.
- **Classification:** International Equities.
- **Dividend policy:** distributable amounts will be capitalised in full.
- **Net asset value:** daily providing the relevant stock markets are open and orders can be covered.
- **Redemptions:** investors may redeem their equities on the primary market each valuation day before 5:00 p.m. CET and sell their equities on the secondary market at any time during the opening hours of the markets where the Fund is listed.

Risk and return profile

The risk and return category given above is based on the historical performance of the Fund's component assets or the performance of its benchmark index or the simulated performance of a portfolio model. As such, this risk estimation cannot be a reliable indicator of future risk, and it could change over time. The lowest category does not mean a risk-free investment. The Fund has been classified as category 7 given its exposure to the Benchmark Index. Category 7 indicates that it is possible to suffer a very large or even complete capital loss, suddenly under normal market conditions, as the value of your investment could fluctuate very strongly and quickly both upward and downward each day.

The significant risks for the UCITS not taken into account in the above-mentioned indicator and which could result in a decrease in the Fund's net asset value and which the Fund is authorised to include in this document (see the Risk Profile section of the prospectus for more information concerning the risks):

- **Counterparty risk:** The Fund is exposed to insolvency risk or any other type of default of any counterparty with which it enters into an agreement or transaction, particularly in the case of OTC futures or temporary sales of securities. Such an event could result in a significant decrease in the Fund's net asset value. In accordance with the regulations applicable to the Fund, this risk may not exceed 10% of the Fund's total assets for a specific counterparty.
- **Risk associated with the use of derivative instruments:** The Fund may use financial contracts that entail various types of risks, including but not limited to leverage, high volatility, valuation, or liquidity risks.

Costs

The fees you pay cover the Fund's management costs, including promotion and distribution costs. These fees are deducted from the potential performance of your investment. For more information concerning costs, please refer to the Costs section of the Fund's prospectus, which is available at www.lyxoretf.com.

One-off fees deducted before or after investment

Front-end load:	Not applicable to secondary market investors*.
Exit fees:	Not applicable to secondary market investors*.

The percentage shown is the maximum that could be drawn on your capital before it is invested or before the proceeds of your investment are paid out.
***On the secondary market:** as the Fund is an ETF, investors that are not Authorised Participants shall, in principle, buy or sell the Fund's shares on the secondary market. On the secondary market, investors may incur brokerage and/or transaction fees for placing their buy/sell orders on the market in question. These fees are received by market service providers and are not charged by/paid to the Fund or to the management company. Investors may also pay an additional amount arising from the bid-ask spread on the Fund's shares.

On the primary market: Authorised Participants subscribing for/redeeming their shares directly from the Fund will pay the costs applicable to the Fund's primary market, as described in Section 4 of the prospectus.

For more information, please see the Fund Prospectus.

Fees deducted by the Fund over one year.

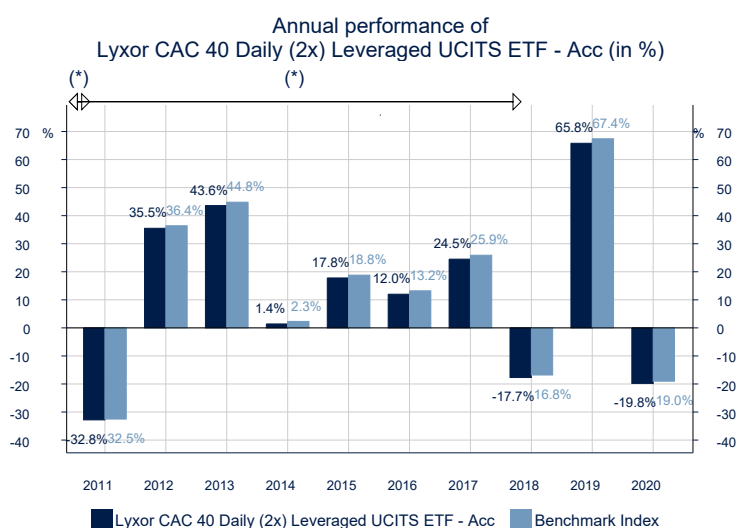

Ongoing fees:	0.40 %.
----------------------	---------

This percentage is calculated based on the expenses of the financial year ended in October 2020 (including all taxes, where applicable) and may vary from one year to another. It does not include performance fees or transaction fees, except for entry and/or exit fees paid by the Fund when it buys or sells units or shares of another UCITS.

Fees deducted by the Fund under certain circumstances

Performance commission:	None.

Past performances

Past performance is not a reliable indicator of future performance. Performance is shown in euro (EUR), after deduction of ongoing charges. The Fund was created on 23 May 2008.

When the Benchmark Index is denominated in a currency other than that of the Fund, the performance of the Benchmark Index is first converted into the Fund's currency for the sake of clarity and comparison. For this purpose, a foreign exchange transaction (at the WM Reuters rate at 5 pm on the day in question) is applied daily to the value of the Benchmark Index.

(*) Until 19 April 2018, the Fund's performances as indicated are those of Lyxor CAC 40 Daily (2x) Leveraged UCITS ETF (the Absorbed Fund), which was absorbed by the Fund on 19/04/2018.

(*) Until 01/06/2011, the Fund's Benchmark Index was the CAC 40 Leverage Price Return
