What is this product?

Type: Shares of a Sub-Fund of MULTI UNITS FRANCE, a UCITS (Undertaking for Collective Investment in Transferable Securities), established in the form of an SICAV.

Term: The Sub-Fund has an unlimited duration. The Management Company may dissolve the Fund by means of liquidation or merger with another fund in accordance with legal requirements.

AMF classification: International equities

Objectives: The Fund is a passively managed, index-based fund. The management objective of the Fund is to replicate, both upwards and downwards, the Russell 1000® Growth Net Total Return index (net dividends reinvested) (the "Benchmark"), denominated in US dollars (USD) while keeping the tracking error between the performance of the Fund and that of the Benchmark to a minimum.

The expected level of the tracking error under normal market conditions is indicated in the Fund's prospectus.

Additional information on the Benchmark is available on the website www.russell.com.

The Fund aims to achieve its objective through indirect replication, namely by entering into one or more OTC futures contracts (forward financial instruments, "FFI").

The Fund may invest in a diversified portfolio of international equities, the performance of which will be exchanged for that of the Benchmark through FFI.

The updated composition of the securities portfolio held by the Fund is mentioned on the website amundiETF.com.

In addition, the indicative net asset value appears on the Reuters and Bloomberg pages of the Fund and may also be mentioned on the Fund's stock exchange websites.

The Fund is eligible for the French Equity Savings Plan (Plan d'Epargne en Actions français, or PEA) and therefore invests a minimum of 75% of its assets in European Union company shares.

Intended retail investors: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds, seeking to increase the value of their investment over the recommended holding period and who are prepared to take on a high level of risk to their original capital.

The product is not open to residents of the United States of America/"U.S. Person" (the definition of "U.S. Person" is available on the Management Company's website www.amundi.fr and/or in the prospectus).

Redemption and transaction: The Sub-Fund's shares are listed and traded on one or more stock exchanges. Under normal circumstances, you can trade shares during stock exchange trading hours. Only authorised participants (e.g. selected financial institutions) can trade shares directly with the Sub-Fund on the primary market. Further details are provided in the MULTI UNITS FRANCE prospectus.

Distribution policy: In accordance with the prospectus, net income and capital gains from sales may be capitalised or distributed at the discretion of the Management Company.
