Website [www.ubs.com/etf](http://www.ubs.com/etf)

The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising UBS Fund Management (Luxembourg) S.A in relation to this Key Information Document.

This PRIIP is authorized in Luxembourg.

UBS Fund Management (Luxembourg) S.A. is authorised in Luxembourg and regulated by the supervisory authority Commission de Surveillance du Secteur Financier (CSSF).

Date of production of the KID: 17 July 2024.

## What is this product?

### Type

UBS (Lux) Fund Solutions is an undertaking for collective investment in transferable securities (UCITS) incorporated in the legal form of an investment company with variable capital (SICAV) under Part I of the Luxembourg 2010 Law on undertakings for collective investment. The fund is a UCITS ETF.

### Term

The Product does not have a maturity date (the Product has been established for an indefinite period of time). The Manufacturer may terminate the Product early. The amount you will receive upon early termination may be less than the amount you invested.

The recommended holding period (RHP) is displayed in the section "How long should I hold it and can I take money out early?".

### Objectives

The UBS (Lux) Fund Solutions – MSCI Singapore UCITS ETF sub-fund is passively managed and will take proportionate exposure on the components of the MSCI Singapore Index (Net Return) either through direct investments in all or substantially all of the component securities and/or through the use of derivatives in particular where it may not be possible or practicable to replicate the index through direct investments or in order to generate efficiencies in gaining exposure to the index. There may also be instances where a sub-fund holds securities which are not comprised in its index if the portfolio manager of respective sub-fund believes this to be appropriate considering the sub-fund's investment objective and the investment restrictions or other factors. Exposure to the index through direct replication may be affected by rebalancing costs, while exposure to the index through derivatives may be affected by derivative trading costs. The use of OTC derivatives further engenders counterparty risk which is however mitigated by UBS (Lux) Fund Solutions collateral policy.

The sub-fund will invest its net assets predominantly in shares, transferable securities, money market instruments, units of undertakings for collective investment, deposits with credit institutions, structured notes listed or dealt in on a regulated market and other assets eligible under the prospectus.

The sub-fund may enter into securities lending transactions.

Sustainability risks are not systematically integrated as they are not considered as part of the Index selection process.

The return of the fund depends mainly on the performance of the tracked index.

This class distributes its net income in order to maintain the maximum tracking accuracy of the MSCI Singapore Index (Net Return).

### Intended retail investor

This fund applies to retail investors with a basic financial understanding, who can accept a possible loss on the investment amount. The fund is aimed at growing the investment value, while granting daily access to the capital under normal market conditions. With their investment in this fund, investors can satisfy medium term investment needs. The fund is suited to be acquired by the target client segments without any restriction of the distribution channel or platform.

### Depository

State Street Bank International GmbH, Luxembourg Branch

### Further Information

Information about MSCI Singapore UCITS ETF and the available share classes, the full prospectus, and the latest annual and semi-annual reports, as well as additional information can be obtained free of charge from the fund management company, the central administrator, the custodian bank, the fund distributors or online at [www.ubs.com/etf](http://www.ubs.com/etf). Latest price can be found at [www.ubs.com/etf](http://www.ubs.com/etf)

## What are the risks and what could I get in return?

Indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 4 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level. The past may be a poor predictor of the future and, hence, the actual risk of losing money may vary significantly.

The product may be exposed to further risk factors such as operational, political and legal risks which are not included in the summary indicator. Please refer to the prospectus for more detail.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

### Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performances of the product over the last 10 years. Markets could develop very differently in the future.

| <b>Recommended holding period:</b> |  | <b>4 years</b>                  |                                  |
|------------------------------------|--|---------------------------------|----------------------------------|
| <b>Example Investment:</b>         |  | <b>SGD 10 000</b>               |                                  |
|                                    |  | <b>If you exit after 1 year</b> | <b>If you exit after 4 years</b> |
| <b>Scenarios</b>                   |  |                                 |                                  |
| <b>Minimum</b>                     | <b>There is no minimum guaranteed return. You could lose some or all of your investment.</b> |                                 |                                  |
| <b>Stress</b>                      | <b>What you might get back after costs</b>   | SGD 2 200                       | SGD 2 480                        |
|                                    | Average return each year   | -78.0%                          | -29.4%                           |
| <b>Unfavourable</b>                | <b>What you might get back after costs</b>   | SGD 7 720                       | SGD 8 430                        |
|                                    | Average return each year   | -22.8%                          | -4.2%                            |
| <b>Moderate</b>                    | <b>What you might get back after costs</b>   | SGD 10 060                      | SGD 10 780                       |
|                                    | Average return each year   | 0.6%                            | 1.9%                             |
| <b>Favourable</b>                  | <b>What you might get back after costs</b>   | SGD 13 690                      | SGD 14 330                       |
|                                    | Average return each year   | 36.9%                           | 9.4%                             |

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all costs of the product itself. The figures do not take account of your personal tax situation, which can also have an impact on how much you receive back.

Unfavourable scenario: This type of scenario occurred for an investment between 2019 and 2023.

Moderate scenario: This type of scenario occurred for an investment between 2015 and 2019.

Favourable scenario: This type of scenario occurred for an investment between 2016 and 2020.

### What happens if UBS Fund Management (Luxembourg) S.A. is unable to pay out?

Losses are not covered by an investor compensation or guarantee scheme. Furthermore, with respect to State Street Bank International GmbH, Luxembourg Branch as depositary of the Fund, which is responsible for the safekeeping of the assets of the Fund (the "Depositary"), there is a potential default risk if the assets of the Fund held with the Depositary are lost. However, such default risk is limited as the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary is liable to the Fund or to the investors of the Fund for the loss by the Depositary or one of its delegates of a financial instrument held in custody unless the Depositary is able to prove that the loss has arisen as a result of an external event beyond its reasonable control.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The table shows the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed that the product performs as shown in the moderate scenario.
- 10 000 SGD is invested.

|                        | If you exit after 1 year | If you exit after 4 years |
|------------------------|--------------------------|---------------------------|
| Total costs            | SGD 65                   | SGD 270                   |
| Annual cost impact (*) | 0.7%                     | 0.6% each year            |

(\*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 2.6% before costs and 1.9% after costs.

### Composition of costs

| One-off costs upon entry or exit                            |  | If you exit after 1 year |
|---|--|--------------------------|
| Entry costs   | We do not charge an entry fee.   | SGD 0                    |
| Exit costs  | We do not charge an exit fee for this product, but the person selling you the product may do so.   | SGD 0                    |
| Ongoing costs taken each year                               |  |                          |
| Management fees and other administrative or operating costs | 0.5% of the value of your investment per year. This is an estimate based on actual costs over the last year.   | SGD 45                   |
| Transaction costs   | 0.2% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | SGD 20                   |
| Incidental costs taken under specific conditions            |  |                          |
| Performance fees  | There is no performance fee for this product.  | SGD 0                    |

The figures shown here do not include any additional fees that may be charged by your distributor, advisor, stock-brokers fees when dealing on secondary market or any insurance wrapper in which the fund may be placed. Transaction costs related to dealing directly with the Fund will be payable by authorised participants or new investors in the fund. For additional information about costs, refer to the prospectus, which is available at [www.ubs.com/etf](http://www.ubs.com/etf)

## How long should I hold it and can I take money out early?

### Recommended holding period: 4 Year(s)

The recommended holding period for this product is 4 year(s). This is our recommended holding period based on the risk and expected return with the product. Please note that the expected return is not guaranteed. The more the actual holding period deviates from the recommended holding period for the product, the more your actual return will also deviate from the product assumptions. Depending on your needs and limitations, a different holding period may be suitable for you. Consequently, we recommend that you discuss this issue with your customer service representative.

Investors other than Authorized Participants may not subscribe shares directly with UBS (Lux) Fund Solution, but may purchase and sell shares, through an intermediary, on one of the stock exchanges listed for the share class on the website [www.ubs.com/etf](http://www.ubs.com/etf). Direct redemptions with UBS (Lux) Fund Solutions are however possible on each business day in Luxembourg. Authorized Participants may subscribe and redeem shares with UBS (Lux) Fund Solutions under the conditions detailed in the relevant Authorized Participant Agreement.

### How can I complain?

If you have a complaint about the product, the manufacturer of the product or the person who recommended or sold the product to you, please speak to your client advisor or contact us at [www.ubs.com/fml-policies](http://www.ubs.com/fml-policies)
